

**CONFIDENTIAL**

26 October 1964

The following is a list of the proposed subjects to be included in the system description as outlined in UNID-9-13.1/4 dated 24 May 1963. Although this document has a special intelligence classification, this project has been downgraded to unclassified:

System Description: The description of an AIR application, which shall contain the following items of information:

- (a) User's name and designation of the AIR program.
- (b) Date of operational use of the program.
- (c) Purpose of the program.
- (d) Nature of input and output media.
- (e) General description of the processing performed in the operation of the program.
- (f) Statement of the equipment configuration, including peripheral equipment, utilized in operation of the program.
- (g) Detailed information on interface with supporting communications facilities or systems.
- (h) Description of computer programs and program logic.
- (i) Office to which inquiries for additional details should be directed.
